Abhyudaya M

Customer Planning and Demand Fulfillment Operations-Global Fortune-500 CPG Client across categories (Foods & Refreshments, Beauty, Well Being & Personal Care)

Bengaluru, Karnataka, India

Summary

Actively seeking opportunities in Supply Chain Planning, Integrated Business Planning (IBP), Demand Planning, S&OP, Supply Chain Analytics, and O9 Solutions consulting/implementation roles.Supply Chain & Integrated Business Planning professional with experience across Demand Planning, Supply Planning, Trade Promotion Management, and S&OP within FMCG and consulting environments. Experienced in managing customer planning operations for the BeNeLux market across a retail portfolio exceeding $500Mn annual turnover, driving forecast alignment, promotional execution, and operational efficiency improvements.Skilled in CGTPM and O9 Solutions, with hands-on experience in forecast integration, promotion uplift planning, assortment management, trade claims analysis, and cross-functional supply chain coordination. Delivered measurable impact through automation and process harmonization initiatives, including reducing manual effort by 10+ hours/week and supporting analysis of trade claims exceeding $10Mn.Previously worked at Accenture on O9 Solutions implementations across Demand Planning, IBP, Supply Planning, and Solver Plugins, supporting enterprise-scale planning transformations. Experience includes forecast analysis, troubleshooting planning deviations, solver configuration support, and collaboration with business and technical stakeholders to improve planning effectiveness.Strong stakeholder management experience working with commercial, finance, forecasting, and supply chain teams across international markets, with on-ground exposure through retailer and warehouse operations visits in Rotterdam and Brussels.

Experience

Genpact
Assistant Manager

January 2025 - Present (1 year 11 months)
Bengaluru, Karnataka, India

Customer Planning & Trade Promotion Operations professional with experience managing promotion planning, forecast integration, assortment operations, and retailer engagement across the BeNeLux (Belgium, Netherlands, Luxembourg) market for a portfolio exceeding $500Mn annual turnover.

• Led quarterly promotion planning and topline volume-to-revenue projections for major retailers using CGTPM, aligning commercial and supply chain targets.
• Managed annual sales deal integration into promotion proposals, pricing structures, assortment management, confirmations, and short-term uplift response planning.
• Ensured timely integration of CGTPM data into Kinaxis to enrich unconstrained forecasts and support S&OP timelines.
• Oversaw assortment management activities including hard/soft product switches, NPIs, relisting, and repack SKU operations using PEGA and retailer vendor tools.
• Automated complex retailer item-list processes, delivering efficiencies of 5+ hours/week for select Belgian retailers.
• Analyzed and resolved trade claims and debit memos exceeding $10Mn, identifying invalid claims and escalating recurring systemic issues to drive savings and process improvements.
• Collaborated with KAMs, Finance Heads, FEOs, and Supply Chain teams to align promotions with forecast accuracy, financial targets, and inventory constraints.
• Standardized customer planning processes across categories, reducing manual effort by 10+ hours/week post-transition.
• Leveraged prior O9 Solutions experience to troubleshoot Kinaxis forecast deviations, monitor promotional performance, and support operational planning.
• Mentored team members on customer planning operations and contingency readiness while serving as backup support across multiple customers and categories.
• Gained on-ground exposure to retailer and warehouse operations through business visits in Rotterdam and Brussels.
